EXPERIENCE

University of Toledo

IT System Administrator – Level II

Jan 2025 – Present

Department: Dean of Engineering

- Provide **Tier 2 technical support** for 250+ classrooms/offices; troubleshoot desktops, networks, printers, and peripherals for faculty and students.
- Manage **1,000+ endpoints** via **Active Directory** and **Microsoft Intune**; triage **security alerts** and enforce device policies.
- Perform **machine imaging, deployment, patching**, and system refreshes; respond to **security incidents** including isolation and disk wipes.

IT Support Technician

Dec 2025 – May 2026

- Diagnosed and resolved **hardware, software, and network issues**; triaged and documented tickets with structured escalation via UToledo ITHelp.

Undergraduate Research Assistant

Dec 2025 – May 2026

- Develop an automated analysis pipeline to track and classify zebrafish motor behaviors following controlled pharmacological drug exposure using video-based data.
- Collaborate with the Medical Department to curate and validate datasets and processed model outputs to generate statistical insights on drug toxicity, bridging computer science and clinical research.

PROJECTS

AI Phishing Detection Platform | Cybersecurity Analyst & Developer

<https://github.com/Phishing-Detection-Team/fraudify>

Jan 2025 – Present

- Engineered **DOM-level email parsing** for Gmail/Outlook with **prompt injection defense** – preventing malicious email content from manipulating the AI analyzer.
- Secured **Flask** backend with **JWT authentication, rate limiting middleware**, and a constraint-driven **PostgreSQL** schema to minimize attack surface.
- Structured detection logic around **NIST CSF** (Identify, Protect, Detect) – covering threat detection, access controls, and incident-aware logging.

SKILLS

Languages: Python, SQL, C, C++, Java, JavaScript, HTML/CSS

Cybersecurity: NIST CSF, Incident Response, Threat Analysis, Network Segmentation, Endpoint Security, Prompt Injection Defense, JWT Auth, Rate Limiting, OSINT, Malware Analysis

Tools & Platforms: Splunk, Active Directory, Microsoft Intune, PowerShell, VMware, Flask, SQLite3/PostgreSQL, Git, Linux, Windows, macOS, TryHackMe, HackTheBox

Soft Skills: Incident Communication, Technical Documentation, Stakeholder Education, Critical Thinking, Mentorship

CERTIFICATIONS

- **Google Cybersecurity Professional Certificate** – Coursera
- **CompTIA A+**

October 2025

Dec 2025 – In Progress

EDUCATION

The University of Toledo | Toledo, OH

Aug 2023 – Dec 2027

Bachelor of Science in Computer Science GPA: 3.6
